Allowable Subject Matter

2. Claims 1-4 and 6-14 are allowed.
3. The following is an examiner's statement of reasons for allowance: With regard to claim 1, the prior art of record fails to disclose a double end type high pressure discharge lamp having first and second sealing portions, configured as claimed, wherein an external lead extending outward from the first sealing portion and an outward-drawn lead wire electrically is connected to an external circuit without a base, and the external lead and the external circuit are joined to each other by the plastic flow of a caulking member, and the caulking member is surrounded and covered with cement. With regard to claim 2, the prior art of record does not disclose a double end type high pressure discharge lamp having first and second sealing portions, configured as

claimed, wherein an external lead extending outward from the first sealing portion and an outward-drawn lead wire electrically is connected to an external circuit without a base, and the external lead and the external circuit are joined to each other by the plastic flow of a caulking member, and part of the caulking member is buried in the first sealing portion. Claims 3-4 and 6-14 depend from claims 1 and 2. Therefore, claims 1-4 and 6-14 are patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
